FOR IMMEDIATE RELEASE

### ***Local is the Name of the Game for Cameron Communications!***

Carlyss, LA – Local channels are finally available from the satellite providers...wow—where have they been?

While you might get some local channels from your satellite dish, do you know how little you're really getting? For more than 80 years, local has been the name of the game for Cameron Communications.

Cameron Communications is your choice for local channels, bringing you KPLC, KLFY, KBMT, Fox29, KLTL, KJAC, KATC, KFDM, KRIV and KHUT for your prime time viewing pleasure. But, did you know that they also offer KPLC Weather Channel, Cox Sports Television and C-Gov? When you want to know how long it's going to rain at your house, what the score of the McNeese game is, or if the Police Jury decided to allow that apartment building to go up in your neighborhood, "local" takes on a whole new meaning. These channels specialize in getting you the information you need, in the area that you live, when you need it most.

When you call Cameron Communications' main office in Carlyss, or the store in Moss Bluff, you'll notice something different. A friendly and helpful person will be on the other line—one who will answer all of your questions, troubleshoot your issues, and expedite your request. That person is happy and excited to offer you superior Digital Cable services in Cameron Parish, Grand Lake, Moss Bluff, Elizabeth, Pitkin and Sugartown—and chances are that person is, or knows you or your neighbors.

Offering advanced products with a local flair is something that their customers have grown accustomed to, and their personable and professional installers make it that much easier on you. The process to sign up is easy—no "mail-in rebates to receive full credit," no shipping and handling charges and no fine print that "attempts to explain" how much you'll really pay at the end of your contract. In fact, Cameron Communications wants to ensure that you enjoy your service so much that all through the month of July, they're offering customers the "Free" option—Digital Cable for a year for less than \$30, and in some cases, less than \$25! Not to

mention that their customers can choose sweet options like Free Starz! programming for 3 months, Free Encore programming for at least 3 months, and where available, HD for \$1 for 3 months. And installation? That's free, too! They also have great options for their current customers, so all customers, new or current, can get in on the free!

With their 100% buried, incredibly reliable Fiber network, you won't have to pay extra for a new antenna, or have a beautiful, gray, moon zapper on the front of your house, either. Keep the number to Cameron Communications handy...for the next time it rains.

Cameron Communications is Southwest Louisiana's provider of Fiber technology, bringing Digital Cable, High-Speed Internet and Phone service to Calcasieu and Cameron Parishes. For more information on Cameron Communications, please visit [www.camtel.com/Newsroom](http://www.camtel.com/Newsroom).
