Petition Brings Fiber-to-the-Home Technology

Moss Bluff, LA – The neighborhood of Woodland Forrest is now powered by fiber, through Cameron Communications’ advanced Fiber-To-The-Home communications network, thanks to a few people.

It’s the old saying, it only takes one, or in this case, a few...and that certainly holds true for this Moss Bluff neighborhood. After hearing about the benefits of a buried Fiber network and the advanced products that Cameron Communications has to offer, Jim Dufrene and his neighbors, Kevin Savoie, Robert Foreman and others petitioned to bring Cameron Communications to their neighborhood. When the majority of the neighbors signed the petition for service, Cameron Communications rolled their trucks to bring fiber technology to the doorsteps of Woodland Forest.

“I was excited to receive Mr. Dufrene’s letter and petition asking us to bring our service into his neighborhood. It’s initiative like that of Mr. Dufrene and his neighbors that we admire here at Cameron Communications.,” said George Mack, President of Cameron Communications. “When you see consumers embracing technology such as fiber that can enhance their individual and business needs it is motivating.”

According to Mack, “As we hear about other areas in Moss Bluff that are interested in Fiber-To-The-Home technology, we encourage them to contact us, as the Woodland Forest crew did, so we can serve their needs.”

For those who are interested in bringing Cameron Communications’ advanced buried Fiber-To-The-Home network to their neighborhood, they need to hear from you. They encourage residents of Moss Bluff to come by their store located at 180 Gloria Drive, Suite 400, call them at 855-2009 or in the case—start a neighborhood petition!

Cameron Communications is a locally owned and operated telecommunications company out of Carlyss, Louisiana, serving Digital Cable, High Speed Internet and Phone products to Central and Southwest Louisiana and Southeast Texas. For more information on our products and services, visit us online at www.camtel.com, or call 800-737-3900.
